HON. W. H. COX TO RETURN TO MAYSVILLE TO RESIDE.

"Coming back home."

What magic in those three little words!

And coming back to Maysville, the finest city of its size, and the most delightful place to live in on this earth.

Hon. W. H. Cox and wife, who have been residents of Louisville for some time, announce their return to their elegant home in this city about April 1. Mrs. W. F. Power, who now resides in the Cox home, has been notified by Mr. Cox that he will move back home and that she will have to move.

Mr. and Mrs. Cox are natives and almost life-long residents of Maysville, and their return is hailed with delight by their scores of friends. Mr. Cox's real estate holdings here are very heavy and his work for the development of Maysville no one can deny. His return is vastly to our commercial and social interests and The Public Ledger is pleased at the good news.

SQUIRE BAUER'S COURT

Yesterday in Squire Fred W. Bauer's Court James Sapp was tried on a charge of using insulting and immoral language to women and threatening language to a man. He was fined \$100 and sentenced to serve 50 days in jail, and was placed under a bond of \$500 to keep the peace. The sentence was suspended on condition that Sapp leave the county. He was re-arrested after the trial and held to await the arrival of authorities from Fleming county, where he is wanted.

Last night the case of William Edgar was tried for pointing a pistol at another and was dismissed for lack of evidence. Ben Gray, the main witness in the case, was fined \$10 for contempt of court and was arrested on a warrant issued by Squire Bauer, charging him with perjury. Gray had sworn to the court and held to await the arrival of authorities from Fleming county, where he is wanted.

The young man is from a good family and is well thought of in the neighborhood from which he comes. He is survived by a young wife, who was at his bedside at the time of his death. The remains were taken to Ewing for funeral and interment.

WILL MEET TOMORROW.

The Ladies' Aid Society of the First Avenue M. E. church will meet tomorrow afternoon at 3 o'clock at the church.

ENGLAND SAYS WAR WILL BE WAGED AGAINST GERMANY

WILL STARVE OUT TEUTONS.

Easier Feeling Growing Between the United States and Germany.

Thursday, February 18, is the date set by Germany when the war zone decree shall become operative.

Germany has not receded from her statement that because British ships are flying neutral flags, American merchantmen will not be safe in the war zone.

A German official statement says that to precipitate trouble between neutrals and Germany, British submarines may sink neutral ships. Many persons still claim that Cubans sank the Maine and precipitated war between the United States and Spain.

Of 27 steamships that are due to be within the war zone on February 18, four passenger vessels are American-owned and fly the American flag. They are the Sunna, Cushing, Kansas and Philadelphia. Four other steamers carry passengers. They are the Adriatic (British), Bergenfjord (Norwegian), Orduña (British), Niagara (French).

A Berlin dispatch quotes United States Ambassador Gerard as saying: "I believe pending questions will be solved in a manner mutually satisfactory."

The full text of the reply of Great Britain to the American note protesting against the use of the United States flag has been received at Washington.

A new phase was added to the situation by the announcement in the British House of Commons by Winston Churchill, first lord of the admiralty, that Great Britain proposed even more stringent measures to cut off Germany's food supplies from other countries.

A note from the German chancellor, transmitted to the Rotterdam Chamber of Commerce, says that "in most cases" German submarines will be unable to distinguish between neutral and British vessels encountered in the war zone, and that all merchantmen therefore run the risk of destruction.

The United States has submitted proof to Great Britain that the cargo of the United States steamer Wilhelmina, now held for disposition by a prize court, is consigned to German non-combatants, and has asked that the cargo be allowed to go forward.

All Foodstuff For Germany Will Be Barred by the British.

London, February 16.—The prohibition against foodstuffs destined for Germany will be formally proclaimed by Great Britain either tonight or tomorrow, according to present expectations, and the government's retaliatory measures against the threatened German submarine "blockade" will go into immediate effect.

Americans Leaving Germany.

Copenhagen.—Large numbers of Americans are leaving Berlin and pouring in here on every train because of the hostile attitude of the Berlin press and the German people toward Americans.

London, February 16.—"No compromise," this is the attitude of the British government today in reference to the German proposal transmitted through the American government that if England will permit the passage of foodstuffs for the civilians of the Kaiser's empire, the Berlin admiralty will rescind its order establishing a war zone about the British Isles.

DEATH OF MRS. ANN CROWE.

Mrs. Anna Crowe, aged about 95 years, passed away at her home in East Fifth street yesterday morning after a protracted illness covering a period of several years.

Deceased was the widow of the late Michael Crowe, and was most highly respected by a large number of friends and neighbors. She came to this country from Ireland when quite a young girl and has resided in this county since that time.

She is survived by one daughter, Miss Mary Crowe, who made her home with her mother.

The funeral will take place tomorrow morning at 9 o'clock from St. Patrick's church. Interment in Washington cemetery.

NOT OUR MR. J. B. SHAW.

In the Police Court news recently, the J. B. Shaw arrested and fined was not our Mr. John B. Shaw of the East End, but an entirely different character. We say this in justice to Mr. Shaw, as he is not that kind of a man.

CONSOLIDATED SCHOOL BENEFITS.

Some figures which indicate the beneficial effect of rural school consolidation are given by Prof. J. B. Brown, Superintendent of Public Instruction in Hamilton county, Tennessee, in an interview published by the Chattanooga Times.

"Prof. Brown takes the reports from 12 average counties which have 45 consolidated schools, the enrollment of which, under the old system, was 4,129, and which showed under the new 5,138, or an increase of 25 per cent. The average attendance under the old was 3,150 daily, and under the consolidation it was 5,127, or an increase of 43 per cent. In addition, Prof. Brown notes the significant fact that there has been a marked improvement in the standard of scholarship and training of the teachers." Summing up his reasons for so thoroughly approving the consolidation plan, he says it provides 'more comfortable buildings, better equipment, increased enrollment and better attendance,'"

This is the effect of rural school consolidation everywhere. It costs little, if any, more to operate the consolidated school than to carry on several district schools. In some cases it has been found possible to run the consolidated school at smaller outlay than was required for the several schools which it superseded. But conceding that operation costs more under consolidation, it becomes evident that the better results secured are well worth the money.

Bad roads constitute the greatest obstacle to school consolidation in most of the counties in Kentucky. There are many counties, however, where the roads are good and where consolidation is entirely practical. There is a general movement for the betterment of the rural schools, and the most salutary method of improvement is by the process of merging several poorly equipped schools into one and supplying for the consolidated school a comfortable and attractive building suitable in every way to the educational needs of the community.—Courier-Journal.

MEANING OF HAPPINESS.

Happiness is not so much a question of possessing the best, but of making the best of what we have. The mere possession of temporal wealth, which so many persons seem to think insures perfect contentment and consequently happiness, is certainly not enough for any man, however much opinions may vary on this point. It is human nature never to be quite satisfied; the more a man has the more he wants, and even with the means to gratify his normal tastes and inclinations there are times when he wants something more, something that his easy circumstances deny to him—a healthy interest in life. The man whose fortune insures his material comfort for the rest of his natural life can have no real interest in the kind which his poorer neighbor possesses. Of course, in his earlier years he is privileged to indulge his natural cravings for the joys that money can bring, but after a while these joys lose their primal interest because he tires of his never-ending ability to gratify them and consequently he looks out upon life with a more or less languid interest which can not bring him true happiness. He even envies his less fortunately circumstanced neighbors their faculty of getting something out of life which he is not able to obtain—the perennial hope of something better still to come.—Charleston News and Courier.

As was to be expected, Canada's sales of merchandise to this country last year under Dr. Wilson's "tariff for competition" increased (as compared with the figures of the year before) by \$34,445,610, while this country's sales of merchandise to Canada fell off by \$21,267,312. It works that way.—Hartford Courant.

SAME HERE.

Those Paris and Bourbon county people who are helping the Chicago mail order houses to pile up a colossal fortune will be interested to know that the Sears-Roebuck Company has declared a 50 per cent dividend on common stock and has issued \$20,000,000 of common stock absolutely free to the stockholders. What proportion of this was contributed from this city and county and diverted from Paris merchants?—Bourbon News.

The rebuke is timely and true. We are told that many Maysvillians last week were hooked in by a slick stranger to the tune of \$3 each to subscribe for a publication and a so-called plan to levy a local tax on all Sears & Roebuck sales coming into Maysville. Of course, it is illegal and impracticable. If Sears & Roebuck are taxed every bit of merchandise of any description would have to be taxed, and every article from Maysville going into other territory would also have to be taxed.

The only way to put Sears & Roebuck out of business in this county is for our people to buy at home.

A GOOD MAN LANDS BIG JOB.

It's an old saying that "an editor never gets nothing, 'nough." But sometimes, yes.

Mr. J. E. Cross, editor of the Portsmouth Star and the Adams County Record, has been appointed State Printer of Ohio by Governor Frank B. Willis. This is a popular appointment where Mr. Cross is known. He is a straight-out Republican, a good newspaper man, and we have no doubt will conduct the affairs of the office in an able and economical manner.

Mr. Cross ran the subscription list of his West Union Record up to 4,400 copies in his county seat town and his brief connection with the Portsmouth Star has resulted in making it a successful journal.

His appointment is a fitting reward for faithful labor and unwavering party services.

OUR CITIZEN'S DEMAND

Fully Complied With—A Maysville Resident Furnished It.

There are few items which appear in this paper more important to Maysville people than the statement published below. In the first place, it is from a citizen of Maysville and can be thoroughly relied upon. In the second place it is undisputedly proven that Doan's Kidney Pills do their work thoroughly and not temporarily. Read this carefully:

Frederick Dresel, 1238 E. Second St., Maysville, Ky., says: "I was troubled with inflammation of the bladder and annoyance from my kidneys. The passages of the kidney secretions were irregular and I had a severe pain across the small of my back which interfered with my duties. When a friend advised me to try Doan's Kidney Pills, I got a box at Wood & Son's Drug Store. Since using them I have had no trouble. All I said about Doan's Kidney Pills before, still holds good."

Mr. Dresel is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Dresel had—the remedy backed by home testimony, 500 all stores. THE PLEDGE FOR TOBACCO GROWERS.

The temporary Executive Committee of the proposed tobacco growers' association fixed the form of pledge which the tobacco growers in the 40 counties of the burley belt will be asked to sign. The pledge is as follows:

"We, the tobacco growers and residents of _____ county, hereunto affix our names for the purpose of becoming members of the Tobacco Growers' Association now being organized for the purpose of securing and maintaining a living price for our tobacco, and pledge our assistance and influence in organizing said association, and hereby agree to abide by the charter and by-laws of said association, which are now or are to be adopted by our representatives to the district meeting at Lexington, March 2, 1915."

MRS. EDITH ALEXANDER BRONSTON NEAR DEATH IN PARIS HOSPITAL.

Mrs. Edith Alexander Bronston, daughter of George B. Alexander, who was recently convicted of wrecking the Alexander bank at Paris, is lying critically ill at the Massie Memorial Hospital in Paris. She is suffering from double pneumonia and Bright's disease, and it is said that worry over her father's predicament was also a contributing cause to her illness. Much uneasiness is felt over Mrs. Bronston's condition and her father, who is confined in the Paris jail, was permitted under escort of an officer to visit his daughter. Mrs. Bronston is the widow of the late Hughes Bronston, son of the Hon. Charles J. Bronston.

Westbrook, Me.—"I was passing through the Change of Life and had pains in my back and side and was so weak I could hardly do my housework. I have taken Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. I will recommend your medicine to my friends and give you permission to publish my testimonial." — Mrs. LAWRENCE MARTIN, 121 King St., Westbrook, Maine.

Manston, Wis.—"At the Change of Life I suffered with pains in my back and loins until I could not stand. I also had night-sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The pains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since." — Mrs. M. J. BROWNELL, Manston, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled in such cases.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

ANNOUNCEMENTS.

For State Senator.

We are authorized to announce Dr. C. H. Fultz of Vanceburg as a candidate for State Senator from this, the Thirty-first District, composed of Mason and Lewis counties, subject to the action of the Republican party as expressed at the State Primary election, to be held August 7, 1915. Your vote is kindly solicited.

Tackle the work just in front of you. Strive in an honest way to do the best you can, and if, having done your best, there seems to appear the hand of some overruling power which hammers you, take it like a good piece of steel and come right off the anvil with a better temper and a keener edge.—C. PECULIAR VERDICT

Freak Jury Decision That Takes the Cake—Dose of Salts Gets a Woman \$20,000 Damages.

(Cincinnati Enquirer.)

A verdict for \$20,000 damages was returned by Judge Pugh's Superior Court jury in the suit of Miss Cameron against M. C. Dow, druggist.

Miss Cameron, who is a short-story writer, and lived on Stanton avenue, charged that in the fall of 1913 she purchased 5 cents' worth of Epsom salts at one of the Dow stores but after she took some of the salts she became ill and physicians pronounced it arsenical poisoning.

Miss Cameron's entire side became paralyzed and she has been practically helpless ever since. She is still a patient at the German Deaconess Hospital, and was brought into court on a cot.

Her suit was for \$75,000 damages, she claiming that white arsenic had become mixed in the salts and this caused her condition.

The defense denied this and declared that if Miss Cameron was poisoned she must have gotten hold of another package, and did not get the poison from the salts.

At the first trial of the case the jury disagreed. The second trial lasted over three weeks, and the jury returned a verdict for \$20,000 damages, after being out but an hour and half. The jury stood 10 to 2 on the verdict, the case being one where a three-fourths verdict may be returned. Attorneys Peck, Shaffer and Peck represented Miss Cameron in the last trial. Former Judge Miller Outcalt represented M. C. Dow.

110,000 TONS OF FOOD SENT THE BELGIANS.

New York.—More than 110,000 tons of food had been sent to Belgium up to January 20 by the Commission for Relief in Belgium, according to its twelfth weekly report issued. During the week ending January 20, 23,227 tons were shipped, more than twice the amount shipped the week before. Of this shipment 20,365 tons were wheat and 2,340 tons flour, the remaining 531 tons being composed of rice, peas, beans, salt and potatoes.

Of the 11,713 tons of all supplies shipped up to the close of the report, 652 tons were medical stores. The commission announced that need for food in Belgium is increasing.

Physically and Mentally Worn Out—Tells How Nervous and Crying Spells Were Ended by Vinol.

Monnouth, Ill.—"I was weak, worn-out and nervous. I had no appetite and was getting so thin and discouraged, one day I broke down and cried when a friend came in and asked me what was the matter. I told of my condition and how nothing I took seemed to do me any good. Vinol was suggested. I got a bottle and before it was half gone I could eat and sleep well. I continued its use and now my friends say I look ten years younger, and I am well, healthy and strong. I wish I could induce every tired-out, worn-out, nervous woman to take Vinol."—Mrs. HARRIET GALE, Monnouth, Ill.

There are many over-worked, tired-out careworn, nervous women in this vicinity who need the strengthening, tissue building, and vitalizing effects of Vinol, our delicious cod liver and iron tonic, and so sure are we that it will build them up and make them strong that we offer to return their money if it fails to benefit.

Vinol is a delicious preparation of the extract of cod liver oil and peptone of iron and contains no oil. John C. Pecor, Druggist, Maysville, Ky., and at leading drug stores everywhere.

FACTS ABOUT THE FEBRUARY MOON.

The moon will have no chance to get full this month.

In revolving to the music of the spheres the calendar has slipped a cog for the first time since 1846, and the faithful satellite will never have a chance to get "all lit up" in February.

Unscientifically speaking, the explanation is this: The "man in the moon," known for ages as the friend of lovers, is sulking because this is not leap year. Had it been so arranged that 1915 could have been a leap year, the moon would not have been forced to go through the month without getting full.

Weather forecasters thus explain the reason for the lack of a full moon this month:

"The moon's period of evolution is 2½ days. For the last 60 years February has managed to change on time, despite the fact that for three years out of four it has only 28 days. This year its 28 days fell in between the beginning and the end of the moon's phases."

"If it had been leap year the situation would have been different, as a February with 29 days would have caught a fleeting glimpse of the full moon."

HENCE THE TERM "DEVIL."

Of places to borrow, the printing office here catches the brunt. Folks seem to think we have a workshop filled with every imaginable tool or material that they could use, and come here to get it. From one to a dozen times a day some one will ask, "Have you a hammer I could get just a minute?" Then they ask for all the other things in order. A boy came in the other day and wanted to borrow the office cut, and frequently they come in and want to borrow the job printer for a couple of hours. Then a fellow comes in and wants to get a pole, like he thought he was entering a forest. Scrap paper, pieces of brass, extra copies of the paper, exchanges, are public property, it seems. "Have you anything to read?" is another query; and then we get accused of scattering waste paper about the streets. No wonder a boy who enters a printing office to learn the trade is called a devil. If he isn't when he enters he will be when he completes the trade.—Grayson (Ky.) News.

AMBITION.

Brutes find out where their talents lie: A bear will not attempt to fly; A foaled horse will oft debate, Before he tries a five-bar'd gate; A dog by instinct turns aside, Who sees the ditch too deep and wide; But man we find the only creature Who, led by folly, combats nature; Who, when she loudly cries,—forbear, With obstinacy fixes there; And, where his genius least inclines, Absurdly bends his whole designs. —Swift.

The rule is that the man who goes to the trouble and expense necessary to the shooting of a wild duck pays an exorbitant price for game.

The trouble is that the man who wins a medal is inclined to wear it.

"He is the sort of fellow," said Eph Wiley, "who believes a horseshoe is lucky."

Except on Sundays and the birthday anniversaries of great men, the bank does business every day of the year.

DANCING NOW AND IN 1850.

Human life seems to run in cycles, each with its spasms of reform, its denunciations of the things which are new and its dire prophecies of the disasters that are to befall the civilization of the day unless mankind mends its ways and turns its back upon the innovations designed by the devil to ensnare the feet of the thoughtless.

Thus today the press is filled with criticisms of the tango dance and we sit back and reflect upon them and wonder if the world is growing worse.

But cheer up, Our fathers and our grandfathers bumped up against the same sort of thing and they worried and stewed just as much as we are doing today. Thus, in Godey's Lady's Book for April, 1850, a writer threw a few fits over a waltz, doubtless the very same waltz that writers of today call so loudly upon the young people to continue instead of the new-fangled dances. This writer of 65 years ago said:

"I have seen the Naeth girls of India and the slaves of Persia, but none of these would have danced as we see the dances at home performed by some young ladies, in a country formerly so celebrated for the modesty and propriety of its women. One small comfort is that it can never be worse. But really more to blame than the girls, I think, are the mothers, who composedly sit looking on such a scene as baffles description. It is only fit for the hours of a Mohammedan paradise; but certainly not for Christian ladies. There is still one comfort—it can not be worse."

FADS AND FANCIES.

New crocheted scarfs are being done with irregular patterns which suggest the art nouveau designs from Vienna. Boudoir caps have large bows made of wide ribbon.

Organdie will be a great favorite in cotton materials.

Dainty muslin collars, berths and ruffles, recalling the mid-Victorian days, are among the novel neckwear for spring.

Simplicity is the keynote of the new shirtwaist styles.

The half-high neck is in great favor for new blouses.

Petticoats still fit smoothly around the hips, but their flounces are wide.

INDIAN CENTENARIANS AT MEETING.

Muskegon, Mich., February 17.—Three centenarian Indians, who dodled about the wigwams of their parents when Michigan was the scene of bloody strife between the American and British in the war of 1812, were the guests of honor here today at the annual midwinter meeting of the Michigan Pioneer and Historical Society. The Indians, who are residents of Oceana county, related reminiscences of the pioneer days and exhibited products of their tribe's handiwork.

MEDICAL MEN AT CHARLESTON

Charleston, S. C., February 17.—Prominent physicians and surgeons of Virginia, North and South Carolina gathered here today for the annual meeting of the Tri-State Medical Association. President E. C. Register of Charlotte, called the convention to order this morning and Mayor Grace delivered an address of welcome. The sessions will close tomorrow.

MORE FORD EQUIPMENT.

Henry Ford and his wife, it is reported, have been honored by having a pair of rare orchids named after them. The plant has been cultivated by a Rutherford (N. J.) horticulturist, and is said to be the only one of its kind in existence. The two blossoms are named "Mr. and Mrs. Henry Ford."

BAD COOKING AND DIVORCE.

A Cincinnati judge, who has tried 6,000 divorce cases during a six years' term in office, says that in the great majority where strife was charged to the woman, "it could generally be traced back to the fact that she was not a good cook."

This is a striking testimonial to the value of teaching domestic science in the public schools. Cooking is essential to human welfare and happiness. It is essential to life itself. Every girl should learn how to cook, not necessarily that she may devote her life to cooking, but that she may understand the rules of the game; that she may know good cooking when she meets it at the dinner table; that she may be capable of directing the preparation of a wholesome meal and that she may be able to prepare one herself in case of an emergency.

Incidentally, it is no mean accomplishment for a boy to know something of the rudiments of cooking, for there will be innumerable occasions in life in which such knowledge will "come in handy." Poor cooking certainly is not conducive to peace in the household and probably it is at the bottom of more matrimonial infidelity than the general public imagines. The jurist who, from the depths of his experiences in trying divorce cases, advised all persons contemplating marriage to give serious thought to the domestic problems of life may be likened to "a voice crying in the wilderness."

Hunger does not improve the human temper, but an appetizing meal is a promoter of harmony and contentment. The Cincinnati judge's observations are worth thinking about by those who are about to enter upon the laudable enterprise of homebuilding and housekeeping.—Courier-Journal.

HOME AND FARM.

Haul out the coarse manure for the garden and turn if you have not already done so. Save your rotted manure to go on top. Fifty loads to the acre makes a good garden spot.

Raise your vegetables and put up plenty of them for fall and winter. This will cut the high cost of living and afford much pleasure to the family.

There is an increase in all kinds of live stock in the United States with the exception of horses and mules. The total value of stock of this country is six millions, or \$1,000 worth to each farmer. Have you got your share?

Now is the time to begin pruning and spraying your fruit trees if you wish to raise fruit.

Every farmer needs a thousand or two of life insurance in case of death to relieve the estate of all indebtedness.

Every man should raise and feed an extra hog in the year 1915. It will increase the wealth of the state and will help the owners pay their taxes.

It is said that the lamb crop for 1915 will be the shortest in years and it might be added that they will bring more money.

SEASON OF LENT AT HAND.

New York, February 17.—Lent, the penitential season of the ritualistic branches of the Christian Church, begins today. Simultaneously the winter social season comes to an end, and the members of society are engaged in a grand hegira to Florida, the Carolinas, California and other warm climates to escape the rigors of the month of March. Those society women remaining in town will spend the penitential period in recuperating after their winter of gayety and getting themselves in good condition for spring travel and summer dissipations. The younger set, of course, will continue to indulge more or less in social diversions. Lectures and singing classes will be a daily diet, while swimming, fancy dancing, fencing, swimming, skating and gymnastics are all practiced by the fashionable young men of society who, as a matter of fact, enjoy the Lenten occupations as a contrast to their more conventional life of the winter.

IS DEATH THEIR END.

(Our Dumb Animals.)

John Keble was the distinguished lecturer on poetry at Oxford, 1832-1841. Dean Church said the Keble lectures constituted "the most original and memorable course ever delivered from the Chair of Poetry in Oxford." It is very interesting to discover in these lectures the many references to animals made by great poets like Homer, Aeschylus, Virgil and others. "I am far from denying," says Keble, "that to this day the counsels of Divine Goodness regarding dumb creatures are, for us, involved in deep obscurity, yet we see, nevertheless, that Scriptures foretell for them a 'glorious liberty' and we are assured that the compassion of Heaven, to which we owe so much, will not be wanting to them." The list is a long one of those holding a similar view.

NEW VICEROY INSTALLED.

Dublin, February 17.—Baron Wimborne and Lady Wimborne, who are to preside over Dublin Castle, as representatives of King George for the next few years, were formally received in the city today. The streets were gayly decorated for the occasion and every where was manifested the liveliest interest in the reception to the new lord lieutenant and his wife.

MILLION JOIN THE CHURCHES

In 1914—Net Gain Is Nearly 750,000—Methodists Make Biggest Increase.

A gain of nearly a million members was made by religious bodies in the United States last year, according to statistics prepared by Dr. H. K. Carroll.

The new communicants or members added, made good all the losses by death, expulsion or withdrawal and left a surplus of nearly three quarters of a million. This is an average increase of 2 per cent for all bodies.

Baptists gained 182,125; Eastern Orthodox churches, 36,500; the Roman Catholic church, 136,850; the Lutherans, 50,248; the German Evangelical Synod, representing the state Church of Prussia, 29,315; Methodists 231,460; Presbyterians, 56,019; the Protestant Episcopal church, 28,641.

The Protestant Episcopal church has crossed the 1,000,000 line, having gained \$6,468 since 1910 and over 300,000 since 1900.

The Roman Catholic church has gained nearly a million and a quarter since 1910, and more than 5,500,000 since 1900.

The Methodist Episcopal church, the second largest denomination, gained 17,487 in 1914 and nearly 700,000 since 1900.

The 30 churches, constituting the Federal Council of the Churches of Christ in America, report, as will be seen, nearly 17,500,000 members, somewhat less than half of the aggregate for all denominations, with 103,000 ministers and nearly 139,000 churches. These bodies have a net increase of over 50,000 members, or more than two-thirds of the entire increase of all bodies.
